

Definition and Application

Meter seat is used to prevent contact with soil and prevents corrosion. It also prevents dislocation of meter due to side force and pressure.

- It is made of P.P. materials.
- It enjoys one blade and hollow networks to become more stabilized.
- It can be provided for extension lines of $\frac{1}{2}$, $\frac{3}{4}$ and 1 inches.
- It is installed inside the integrated box.

P.P. - WATER METER SEAT

مشخصات			
آکس نیفه های تجهیزارنده کشور	حد اقل و حدا اکثر عمق انشیمگاه	ابعاد خارجی	محل
11	20 x 60	150 x 150	$\frac{3}{4}$ " و $\frac{1}{2}$ "
10	20 x 50	125 x 125	1"

ابعاد بر حسب میلی متر می باشد.
